

Sushant KC

Brooklyn, NY

Tel: 512-781-4630 | E-mail: sushant.kc@jjay.cuny.edu | <https://www.linkedin.com/in/sushantkc03/>

EDUCATION

CUNY, JOHN JAY COLLEGE OF CRIMINAL JUSTICE
Bachelor of (Science) in Computer Science and Information Security

New York, NY
Dec 2027

CUNY, LAGUARDIA COMMUNITY COLLEGE
Associates of (Science) in Computer Science GPA (3.4/4.0)

New York, NY
Dec 2025

TEXAS STATE UNIVERSITY
Bachelors of (Science) in Computer Science GPA (4.0/4.0)

San Marcos, TX
Dec 2023

EXPERIENCE

Hamro Health
Marketing Officer

Kathmandu, Nepal
Nov 2022 - Jun 2023

- **Institutional Client Acquisition:** Conducted targeted outreach to 112 schools across Kathmandu Valley, securing 22 contracted institutional clients (~19.6% conversion rate)
- **B2B Sales & Negotiation:** Delivered in-person presentations to school administrators and decision-makers, closing multi-year healthcare service agreements
- **Pipeline Development & Follow-Ups:** Managed outreach tracking and structured follow-up process, improving response rate and accelerating deal cycles
- **Proposal & Investor Materials:** Prepared 15+ formal business proposals and contributed to investor-facing documentation supporting service expansion

PROJECTS

AI-Powered Sports Betting Analytics Application
Independent Project
Live Demo: <https://betting-ai-site.vercel.app/>

New York, NY
April 2025 - May 2025

- **Data & Probability Modeling:** Built a Python-based system to process historical match data and sportsbook odds to generate probability features for prediction.
- **Probability Estimation:** Implemented logistic regression to model outcome likelihood
- **Expected Value Analysis:** Derived implied probability from market odds and performed expected value (EV) calculations to identify positive expectation scenarios
- **Backend Logic & Data Handling:** Managed structured data flows and optimized data retrieval for performance within the application
- **Risk Allocation:** Applied Kelly Criterion to optimize capital allocation under probabilistic growth assumptions
- **Web Application Development:** Developed an interactive dashboard that allows users to explore match probabilities, EV calculations, and betting insights.
- **Deployment:** Deployed the application on Vercel for live web access and real-time interaction with the analytics interface.

ADDITIONAL INFORMATION

- **Languages:** English (fluent), Nepali (fluent) and Hindi (fluent)
- **Technical Skills:** Python, C++, JavaScript | SQL (queries, joins, aggregation) | Logistic Regression & Probability Modeling | Data Handling and Relational Databases | Data Structures & OOP | LLMs and RAG Fundamentals | REST APIs, Git | Technical Sales & Client Communication
- **Volunteer:** NYC Cops&Kids Boxing (Aug 2024-Dec 2024): Youth mentorship and structured boxing training support
- **Interests:** Cooking, probabilistic modeling projects, and performing guitar and songs at local bar gigs
